

FISH EATER TABLETS

Suitable species

All fish eating animals, fish and birds – Whales, Dolphins, Seals and Sea lions, Sharks, Rays, Penguins and Alligators etc

Benefits

- Replaces the Vitamins lost when feeding dead or frozen fish or fish which have had their internal organs removed (e.g. Vit. B1 'Thiamine' is destroyed by Thiaminase activity).
- Contains optimum levels of essential Vitamins and Minerals needed for these species.

Composition

Vitamins, Calcium Carbonate, Maltodextrin, Yeast, Cellulose, Silica, Stearic Acid and Magnesium Stearate.

(Composition may be subject to change due to seasonal availability)

Feeding recommendations

As a thumb rule for Adults Feed 0.02 tablets / kg Body Weight / Day (i.e. 250 kg Seal = 5 tablets / d)

As a thumb rule for Growth/Lactation Feed 0.03-0.04 tablets / kg Body Weight / Day (i.e. 25 kg Ray = 0.75 -1 tablet / d)

The following gives an indication for some other adults species. Tablet doses should be taken as a maximum.

Whales/Sharks: up to 10 tablets per day depending on size.

Rays: ½ to 4 tablets per day depending on size.

Dolphins: up to 5 tablets per animal per day.

Penguins: 1 to 3 tablets per day depending on size.

Sealions/Seals: 3 to 5 tablets per animal per day.

Alligators/Crocodiles: depending upon size (see above).

Ideally the tablet should be inserted into the mouth of the whole fish before being fed. If pieces of fish are used, the tablet should be inserted in an incision. The tablet can be broken in half or even ground to a powder if necessary to aid feeding.

Calculated analysis per '1.2g tablet'

(Nutrients are expressed as total supplemented calculated values expressed on a fresh weight basis)

Vitamin A (added as Retinyl Acetate)	IU	10000
Vitamin D3 (added as Cholecalciferol)	IU	2000
Vitamin E (added as dl-alpha-tocopherol acetate)	IU	160
Vit. B1 (added as Thiamine HCL)	mg	50
Vit. B2 (added as Riboflavin)	mg	1.20
Vit. B6 (added as Pyridoxine HCL)	mg	1.50
Vit. B12 (added as Cyanocobalamin)	µg	1.50
Vit. C (added as L-Ascorbic acid Monophosphate)	µg	47
Vit. K3 (added as Menadione Sodium Bisulphate)	mg	0.50
Folic Acid	mg	0.16
Nicotinic Acid	mg	5.70
Pantothenic Acid	mg	6.70
Biotin	mg	0.028
